

INSPECTION, TESTING & MAINTENANCE OF WATER BASED FIRE PROTECTION SYSTEMS

PURPOSE- This one-day seminar describes the responsibility of the owner, contractor and authority having jurisdiction in maintaining a working water based fire protection system. The seminar is based upon NFPA 25, and is a basic level class. The seminar will provide attendees with the understanding of the need and requirements to inspect test and maintain a fire protection system, and to familiarize participants with procedures for inspecting, testing and maintaining each system.

WHO SHOULD ATTEND?

- Code Officials
- Designers/Contractors
- Design Professionals Architects/Engineers
- Building Owners/Managers
- Installers
- Insurance Representatives

MATERIALS- Each attendee will receive a CASA workbook and other prepared materials. *It is recommended that each attendee bring their own copy of NFPA 13 and NFPA 25.*
